

HARBORTOUCH

Employee of the Year

Harbortouch hospitality solutions provides the ultimate tool to help make running your business easier and more profitable with an easy to use, high performance POS system at an affordable price. Choosing Harbortouch is like adding a new employee who helps you manage your business while saving you money. Ideal for restaurants, bars and hotels, Harbortouch hospitality will enhance your payment processing solution and can accommodate all of your operational needs as well. Adding Harbortouch to your team may be the best hiring decision you've ever made!

Streamline Your Business

Combine multiple operations into one easy-to-use application

- Use reports to manage inventory and monitor stock depletion
- Manage employee schedules, productivity and track hours with a built-in time clock
- Table tracking with a graphical table map
- Kitchen printing and/or kitchen video available

Save Time and Money

- Increase wait staff efficiency
- More table turns
- Fewer complimentary meals due to server/kitchen errors
- Highly accurate ordering system
- Detailed reports and management tools allow for less wasted food and supplies

Advanced Reporting

Wide range of useful, real time reports including:

- Financial reports
- Sales - predict volume and schedule employees appropriately
- Inventory - enable accurate supply ordering
- Order reports - identify bestselling and high profit items
- Discounts, voids and refunds
- Charge accounts
- Hourly store productivity

Environmentally Friendly

The Harbortouch POS System minimizes its carbon footprint over the entire lifecycle of the product, from its carbon neutral manufacturing at the factory through its low energy usage at your location. The low voltage CPU provides optimal performance with minimal power consumption and heat output, allowing you to save money and the environment.

Improve Efficiency and Increase Sales at Your Business

Contact your Harbortouch Sales Representative today and let us introduce you to your new star employee. We will equip you with a dynamic POS system that will automate your daily management activities so you can concentrate on keeping your customers satisfied and spending.
